BOJE ZA ZIDOVE I FASADE | PAINTS FOR WALLS AND FACADES

MYPOL

Bijela boja za unutrašnje zidove.
White paint for interior walls.

MY WHITEPOL

Bijela boja za unutrašnje zidove.
White paint for interior walls.

MYPEARL

Vodoperiva bijela boja za unutrašnje zidove.
Washable white paint for interior walls.

MYLATEX SATEN

Latex boja za unutrašnje zidove.
Latex paint for interior walls.

MYFAS

Visokokvalitetna bijela fasadna boja.
High quality white facade paint.

MYBETON TON

Visokokvalitetna boja za beton
High quality paint for concrete surfaces.

MYCOLOR

Tečni pigment za nijansiranje.
Liquid toning pigment.

DEKORATIVNI ZAVRŠNI MALTERI | DECORATIVE FINISHING PLASTERS

MYAKRIL

Dekorativni akrilni malter.
Decorative acrylic plaster.

MYKULIR

Akrilni dekorativni fasadni malter.
Acrylic decorative facade plaster.

MYSILIKAT

Dekorativni silikatni malter.
Acrylic silicate plaster.

MYSILIKON

Dekorativni silikonski malter.
Acrylic silicon plaster.

MYEDELPUTZ

Strukturni mineralni malter.
Structural mineral plaster.

IMPREGNACIJE | IMPREGNATIONS

MYKERA

Bijela vodena impregnacija.
White water impregnation.

MYGRUND

Visokokvalitetni premaz.
High quality coating.

MYBETON KONTAKT

Impregnacija za slabo upojne i glatke podloge.
Impregnation for weak absorbing and smooth surfaces.

MY HIDROSTOP

Dvokomponentni premaz.
Two-component coating.

MY SINKONTAKT

Latex emulzija za ojačavanje betona.
Latex emulsion for strengthening of concrete.

MAŠINSKI MALTERI I ESTRIH | MACHINE MORTARS

my150

Gletani gipsani malter.
Glitter plaster mortar.

ZAŠTITA I DEKORACIJA ZA DRVO I METAL | WOOD AND METAL PROTECTION AND DECORATION

MYLAZUR

Lazura - zaštita i dekoracija drveta.

Lasur - wood protection and decoration.

MYLAZUR VARNISH

Lazurni lak - zaštita i dekoracija drveta.
Lasur varnish - wood protection and decoration.

MYWOOD PRIMER

Temeljna boja za drvo - osnovna zaštita drveta.
Wood primer - basic wood protection.

MYWOOD PRIMER NITRO

Temeljna boja za drvo NITRO - osnovna zaštita drveta.
Wood primer NITRO - basic wood protection.

MYMETAL PRIMER

Temeljna boja za metal - osnovna zaštita metala.
Metal primer - basic metal protection.

MYMETAL PRIMER BRZOSUŠIVA

Temeljna boja za metal BRZOSUŠIVA - osnovna zaštita metala.
Metal primer - FAST DRYING basic metal protection.

MYMETAL PRIMER NITRO

Temeljna boja za metal - NITRO osnovna zaštita metala.
Metal primer - NITRO basic metal protection.

MYAQUA ACRYL

1K akrilna boja modificirana sa PU vezivom.
1C acrylic paint modified with PU connective tissue.

MYEMAUL

Emajl - zaštita i dekoracija drveta i metala.
Emajl - wood and metal protection and decoration.

MYEMAUL NITRO

Emajl NITRO - zaštita i dekoracija drveta i metala.
Emajl NITRO - wood and metal protection and decoration.

MYBOAT VARNISH

Lak za čamce - bezbojni lak za drvo.
Boat varnish - colorless varnish for wood.

MYWOOD FINISH NITRO

Završni lak za drvo NITRO.
Top coat for wood NITRO.

MYPARQUET VARNISH

Lak za parket.
Varnish for parquet.

MYANTI CORR

Sredstvo za uklanjanje hrđe.
Rust remover.

MYPARQUET FIK

Ljepilo za parket.
Adhesive for parquet.

MYWOOD PROTECT

Insekticidno fungicidna impregnacija.
Tincture for wood protection.

PROIZVODNJA

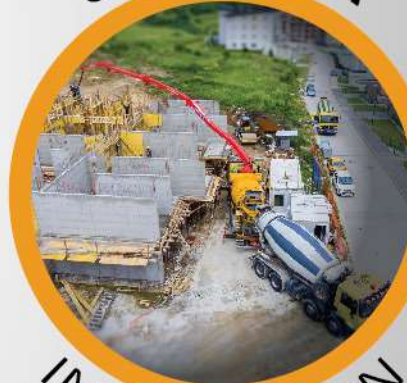

PRODUCTION

DOSTAVA

DELIVERY

UGRADNJA

INSTALLATION

ALMY BETON posjeduje vlastite pogone za proizvodnju betona u Sarajevu, Zenici, Zavidovićima i Maglaju, koje su opremljene najmodernijom tehnologijom, sukladnom evropskim standardima. U našim betonarama koristimo samo najkvalitetnije tipove cementa. Vodimo računa o granulometrijskom sastavu agregata i koristimo savremene mjerne uređaje kako bi u svakom trenutku obezbijedili precizno doziranje ulaznih komponenti betona i isporučili tačnu i naručenu količinu betona svojim korisnicima.

Posjedujemo šest pumpi za ispumpavanje betona, trideset miksera za prevoz betona i svu opremu potrebnu za ugradnju betona. Sve prednje navedeno omogućava nam da proizvedemo i distribuiramo preko 600 m³ betona/1h, što nas čini liderima u proizvodnji betona na području cijele Bosne i Hercegovine. Naša kompanija dobitnik je i QUDAL – Quality MeDAL za proizvodnju betona i betonske galanterije.

Dobitnici smo i prestižnog sertifikata o fabričkoj kontroli proizvodnje betona izdat od strane GIT-ovog instituta za građevinarstvo, građevinske materijale i nemetale iz Tuzle, kojeg je ovlastio BATA institut da vrši certificiranje proizvodnje i proizvoda od betona.

Kompletna tvornička proizvodnja se obavlja prema novim BAS standardima koji su usklađeni prema EU normama: BAS EN 206-1:2002, BAS EN 206-1/A1:2006 i BAS EN 206-1/A2:2007.

ALMY BETON has its own concrete production plants in Sarajevo, Zenica, Zavidovići and Maglaj, which are equipped with the most modern technology, complying with European standards. In our concrete plants we use only the best quality types of cement. We pay attention to the granulometric composition of the aggregates and use modern measuring devices to provide accurate dosing of concrete components and deliver the exact and ordered amount of concrete to their customers at all times.

We have six concrete pumps, thirty mixers for concrete transport and all the equipment needed to install concrete. All of the foregoing allows us to produce and distribute over 600 m³ of concrete/1h, which makes us the leaders in the production of concrete in Bosnia and Herzegovina. Our company is also the winner of QUDAL – QUALITY MeDAL for the production of concrete and concrete products.

We are also the winner of a prestigious certificate of factory control of concrete production issued by the GIT Institute for Construction, Construction Materials and Nonmetals from Tuzla authorized by the BATA Institute to certify production and concrete products.

Complete factory production is performed according to new BAS standards that comply with EU norms: BAS EN 206-1:2002, BAS EN 206-1 / A1:2006 and BAS EN 206-1 / A2:2007.

ALMY BETON - BETONSKE BAZE | ALMY CONCRETE - CONCRETE PLANTS

Proizvodnja betona odvija se u šest betonskih baza ukupnog kapaciteta preko 600m³.

Concrete production takes place in six concrete plants total capacity of 600m³.

KOMPANIJA ALMY

ALMY COMPANY

Sedamdesetih godina prošlog stoljeća gđin Ismet Begić ulazi u svijet biznisa kao samostalni autoprijevoznik. Krajem osamdesetih godina osniva preduzeće za proizvodnju, trgovinu i transport pod nazivom **ALMY**. Jasna vizija menadžmenta, predanost i profesionalan pristup zaposlenih, doprinijeli su da preduzeće **ALMY** izraste u kompaniju koja posluje po ISO standardu, te se ubraja među lidere na Bosanskohercegovačkom tržištu. Danas **KOMPANIJA ALMY** ima preko 400 uposlenih osoba u svim sektorima a broj uposlenika povećava se iz dana u dan.

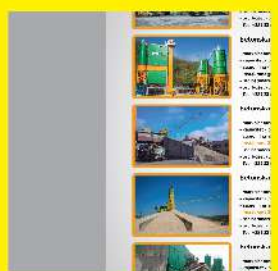

KOMPANIJA ALMY GRADNJA je kompletan, samostalan, fleksibilan i operativan stručni sistem, koji je organizaciono, kadrovski i tehnički potpuno opremljen da na najvišem stručnom nivou realizuje sve zadatke iz oblasti arhitektonskog i građevinskog stvaralaštva. Uz naš stručan kadar i najkvalitetnije materijale koje koristimo, kao i materijale iz vlastite proizvodnje (beton, asfalt, šljako-betonski elementi, betonska galanterija, drvena, pvc i alu stolarija) možete biti sigurni u kvalitetu izvedenog posla.

In the seventies of the last century, Mr. Ismet Begić entered the business world as an independent transporter. In the late 1980s he founded the firm for production, trade and transportation named **ALMY**. A clear vision of management, dedication and professional approach of the employees contributed to the firm **ALMY** becoming a company operating under the ISO standard and being among the leaders in the Bosnia and Herzegovina market. Currently **ALMY COMPANY** has over 400 employees in all sectors and the number of employees is increasing day by day.

ALMY CONSTRUCTION COMPANY is a complete, independent, flexible and operational professional system that is organizational, personnel and technically fully equipped to carry out all tasks in the field of architectural and construction work at the highest professional level. With our expert staff and the best materials we use, as well as our own production materials (concrete, asphalt, slate-concrete elements, concrete accessories, wood, PVC and aluminum joinery) you can be assured of the quality of your work.
